

If you can't move your feet off the ground, move the ground itself.

*RE-HAB*

is a suite specially designed for individuals who have no limitation by space and time.

Sand is implemented in the suite as it symbolize impermanence & transitory nature of life just as it shifts and moves with the flow of time and tides.

The choice of materials equalize the equation between the complexity of classical masonry & simplicity of fabric to neutralize the gloriness of the space making the suite a perfect stay for meditation, rest, & comfort.
