

## BEIRUT BRIDE

TABCHARANY  
HANI

"I sculpted this piece of art following August 4 explosion in Beirut. The city is portrayed by the contemporary statue which stands at a height of 3 meters, on a 4-meter pedestal, surrounded by cement monuments commemorating the victims lost to the blast.

The statue in its entirety was built using debris I collected from the explosion site. Broken glass, pieces of destroyed furniture, as well as pieces of cement were all collected from the streets of Beirut following the explosion. The choice of materials allows the sculpture to be a true embodiment of everything the city stands for and a sensitive reminder of the devastations. This memorial will be a place for people to pay their respects for the precious lives that were lost.

At the same time, this monument serves as a message to the world to show the power of humans in creating beauty from chaos.

All our love and prayers for Beirut."

أبدع الشاب هاني تبشراني فصنع ونحت تمثالاً بعنوان "عروس بيروت".

وقد خصص محافظ بيروت القاضي مروان عبود مكاناً للتمثال في شارع باستور من منطقة الجميزة، كله تحت الإشراف الهندسي للمهندس حبيب تبشراني.

التمثال كناية عن فتاة جميلة (عروس بيروت) تأبى إلا أن تنتفض من تحت الردميات، على الرغم من الجراح التي تمزق جسدها من جراء الزجاج المكسور، فتنثني لها حبيبات من الزجاج لتصنع منها تاجاً يكلل رأسها وكأنه إكليل من شوك، ورداء تستر فيه عريها.

هكذا هي بيروت، تخلق من مصائبها فينيقاً... لتنتفض
